ON FIFTH-AVENUE HOTEL,

At the Intersection of Broadway, opposite Madison square,

TO BE OPENED AUGUST 23, 1859.

This Location is the most desirable of any in this great Motropole, being the most healthy, designated, and central in the city, and very hear and convenient to the Hudson River and Boston Railroad depots.

The entire arrangements of the establishment are the result of mature study and experience, and render it the most comfortable and home-like Hotel in the world.

All the improvements that comfort and convenience have suggested, have been introduced.

Every precaution has been taken, during construction, to secure the positive safety of guests from the dangers of conflagration. Sub-division double prick wails extend from the rock foundation to the rock. All of the floors are double, and are separated by a layer of coment, making the entire structure free-proof.

Among other important improvements, in addition to the usual rainways, a VERTICAL RAILWAY is nearly completed, to convey guests from the first to the upper floors, upon a plan which admits of no possibility of accident.

Lofty, appearus and continuous corridors, forming a promensade of eight hundred fees, upon each of the six stories, give light and air in the highest degree to every apartment.

Allberal space has been appropriated to public Drawing-Rooms and Parlors, connecting which and the Dining-Rooms there is a great Promensade Hall. Suites of spacious Parlors, Canambers and Dressing Rooms, with all the modern convenience, have and of resulting the parlines and sig is gentlemen.

THE DRIGGS PATENT PIANO-FORTES—
Having purchased the manufacturing interest of DRIGGS;
PARMELEE & Co. in the above Piano-Fortes, together with
their extensive stock of materials, we are now prepared with
greatly increased facilities to supply these instruments.

They are constructed on purely scientific principles, having
upper and lower sounding board (with an entire iron frame for
sustaining the strain of the strings), the case forms a complete vibrating shell, and approaches nearer to the violin in perfection
than any other instrument of its class.

L. M. Gottschalk, M. Strakosch, Wm. A. King, Max Maretzsk,
and others, recommend them as follows:

"It is the true philosophical principle for constructing PianoFortes. The tone in point of richness, depth and brilliancy equals
that of the best Grand Piano-Fortes and exceeds them in pure
musical intonation and actual tone power."

The N Y. Evangelist says: "After the strings have arrived at
their foil tension, it will remain in tune for an almost unlimited
length of time."
